SOFTWARE ENGINEER

Experienced in Ruby on Rails and JavaScript based programmer, with a background in product development. I possess a unique mix of creativity and logic skills.

TECHNICAL SKILLS

Proficient in Ruby, Rails, React, JavaScript, Python, CSS, HTML, PostgreSQL, and SQLite

TECHNICAL PROJECTS

Movie Search - [Github](#) | [Demo](#)

Simple React website where you can search movies and pick five favorites.

1/2021

- Developed search engine using movies API.
- Utilized Local Storage to enable the user to save 5 movies as favorites.

Trivia Game - [Github](#) | [Demo](#)

Ten Question Trivia Game.

10/2020

- Randomized 21 question JSON file to render in unique order every game.
- Used React Components so all questions and answers stay on the screen with the answer highlighted.

Etsy Clone - [Github](#) | [Demo](#)

Etsy clone allows users to buy, sell, and review products with Rails backend and PostgreSQL database.

6/2020

- Built React frontend which utilized lifecycle methods to ensure trending items updated every 9 seconds.
- Created charts using JavaScript so users can see how many clicks their items received.
