SOFTWARE ENGINEER

Experienced in Ruby on Rails and JavaScript based programming; and a background in product development for fashion. I possess strong skills in problem solving that help fast past companies keep their competitive edge.

TECHNICAL SKILLS

Proficient in Ruby, Rails, React, JavaScript, Python, NodeJS, Express, CSS, HTML, PostgreSQL, and SQLite.

TECHNICAL PROJECTS

Etsy Clone - Github | Demo
Etsy clone allows users to buy products, sell products, and review products.   6/2020
- Built React frontend which utilized lifecycle methods to ensure trending items updated every 9 seconds.
- Created charts using JavaScript so users can see how many clicks their items received.

So Not Facebook Social Network - Github | Demo
Old school Facebook clone.   5/2020
- Created user log in/sign in methods that blocked non-users from seeing the website.
- Built Rails backend with users' API where all CRUD functions are saved.

Zodiac Game - Github | Demo
Simple React website tells you your sign and fortune.   8/2020
- Developed algorithm that outputs Chinese and western Zodiac sign when given a birthdate.
- Utilized React Routes and state to output unique fortunes.
